

8th G1 Global Conference Report

2018.10.14

G1 Institute

Message from the Chair

Thank you for your support and participation in the 8th G1 Global Conference! I hope you had a wonderful time.

Participants came from around the globe to discuss “Connecting a Fractured World.” We opened with the understanding of changes happening in the liberal world order, including Japan’s leading roles as a legal shaper and stabilizer. As the day went on, we learned more about how deep today’s global fractures really are in East Asia, American society, global trade, and technology.

From there, we started to uncover how Japan can contribute, from tourism to Abenomics, from creative cities to supporting young entrepreneurs. We saw how technology can be used as an opportunity in labor productivity and fintech. We learned about the *omotenashi* mindset and how to create a lasting, inclusive impact. Finally, we wrapped up by discussing actions we can take to make our own connections.

Our vision for G1 has always been “Group of One, Globe is One.” We seek to create a multi-stakeholder forum in which people can share and learn from each other through dialogue in order to make a better Japan and a better world. The success of the G1 Global is all thanks to your passion, your participation, and your commitment to this community. Audience feedback has been quite strong, and many have commented on the positive energy throughout the sessions. We appreciate your valuable expertise and insights, which helped make an exciting and memorable G1 Global.

To rewatch the sessions, or to catch any you may have missed, please check GLOBIS Insights (e.globis.jp) in the coming weeks. We will announce each video’s release on Twitter (@GLOBIS_Insights), LinkedIn (GLOBIS Corporation), and Facebook (<https://www.facebook.com/Globisinsights/>).

I wish you all the best and hope to see you again at the 9th G1 Global on Monday, September 16, 2019.
